

CHEVRON GAS STATION, CAR WASH, and CONVENIENCE STORE

Zoning stipulations at Alma School and Germann in Chandler, Arizona, presented a special challenge. Extensive four-sided architecture, decorative screen walls, and an internalized site layout were required to maintain continuity with the existing center. The area was offset by a wide lawn area accented with palm trees, scattered rocks, and low shrubs. Situated in one of the rapidly-growing Phoenix suburbs, this project was designed to offer the customer a pleasant, convenient one-stop shopping experience.
