

## Felker Development

Felker Development earned a reputation as a premiere custom home builder in Wisconsin in the 1980's. They were one of the first builders to use such innovative design details as 10' and vaulted ceilings, great rooms and combined family room and kitchen set-ups. Many of these innovations are now considered the norm in custom homes.

The exquisite 6,000 square foot Tudor-style home in Brookfield, Wisconsin was the centerpiece of this 5-acre estate. Always keeping the natural setting in mind, the homes architecture blended nicely with the hills and mature trees of the Wisconsin woods.
